

PHILIPS

Philips Vision Plus (+50%) Bulbs

Philips VisionPlus headlight upgrade bulbs provide up to 50% more light on the road, and are recommended by Auto Express, for superior light performance.

Philips VisionPlus is the award winning ultimate vehicle lighting upgrade and can be fitted simply and quickly for less than the price of half a tank of fuel.

You may feel relieved that your car has technical safety features such as an airbag and ABS. But would it not be better to avoid a situation where they may be needed by simply fitting better lighting.

Here are just some of the benefits you'll see:

- Up to 50% more light on the road.
- 20 metres longer beam.
- Better reflections from road signs.
- UV resistant Cut Quartz safe to use with plastic lenses.
- Optimises colour temperature to give deep white light.

But don't just take our word for it! Here's what Auto Express said about **Philips VisionPlus** xenon bulbs in their 2003 Autobulb test...

"It's behind Osram's finest, but Philips' top-of-the-range option is a superb bulb which performed comfortably ahead of the plus 30% premium versions. You just cannot ignore the performance, which is why the Vision Plus merits our Recommended award." - 4 star award
